

Muzammil Iqbal

Cybersecurity Analyst

(773) 788-5204 | muzammil.iqbal023@gmail.com | Princeton, TX | <https://www.linkedin.com/in/mmuzammiliqbal>

SUMMARY

Detail-oriented IT professional transitioning into cybersecurity, bringing 10+ years of experience in system operations, automation, and incident troubleshooting. Skilled in identifying system irregularities, performing root cause analysis, and maintaining operational integrity in high-stakes environments. Developing expertise in SOC operations, threat detection, and vulnerability management, with a strong commitment to protecting systems and strengthening security defenses.

TECHNICAL SKILLS

Security Tools & Technologies: Splunk, SIEM, Wireshark, Burp Suite

Operating Systems: Linux, Windows

Networking: TCP/IP, DNS, Firewalls

Scripting: Python, PowerShell, SQL

Cybersecurity: Threat Detection, Incident Response, Malware Analysis, Threat Intelligence

CERTIFICATIONS

CompTIA Security+	June 2026
Professional Scrum Master I	July 2022
ITIL Foundation Certificate in IT Service Management	September 2016

TECHNICAL PROJECTS

Phishing Hazard Assessment Tool Capstone Project	May 2026
- Designed and conceptualized an AI-driven phishing detection system using machine learning and heuristic analysis to identify malicious URLs, emails, and attachments, while defining detection logic for brand spoofing, suspicious domains, phishing language, and credential harvesting with risk scoring (Safe, Suspicious, High-Risk). - Collaborated on developing a Python-based desktop application (CustomTkinter) featuring multi-layered threat detection and real-time analysis through VirusTotal API integration.	

EXPERIENCE

Batch Scheduler Lead Covista Remote	May 2016 – Present
- Developed and automated batch workflows supporting API, Banner, FTP, UNIX, and Windows systems, improving processing efficiency across departments. - Generated monthly batch-processing metrics and ad-hoc audit reports to evaluate performance and compliance. - Created automation scripts (PowerShell, Shell, SQL) that reduced manual effort and enhanced operational consistency. - Led major system migrations and upgrades, coordinating with vendors and internal teams and ensuring zero disruption to critical business processes. - Troubleshoot production incidents (ServiceNow) and collaborated with cross-functional teams/vendors to resolve issues impacting automations and continued to be delivering 99.9% system availability. - Optimized system performance by identifying and removing obsolete WebService API job IDs, reducing scheduler slowness. - Provided training and process documentation to grow team capability; interviewed System Admin candidates; and advised stakeholders on scheduling/automation best practices. - Partnered with technical teams as Release Manager to support 100+ deployments in QA/PROD. - Developed workflows and Process Definition Documents (PDDs) with business partners for registration/evaluation processes, detailing steps for UiPath bots.	
Associate Operations Center Technician Covista Oak Brook, IL	January 2015 – May 2016
- Monitored servers, networks, and enterprise applications using AppWorx, Nagios, Network Node Manager, System Center Operations Manager (SCOM), Telepresence, and Zabbix to ensure optimal performance and uptime. - Provided Tier 1 and Tier 2 support for domestic and international operations, resolving technical issues and maintaining service continuity.	

- Led service restoration calls with cross-functional support teams and management to quickly diagnose and resolve operational outages.
- Developed monthly performance reports, documented standard operating procedures (SOPs), and completed various operational and technical projects as assigned.

EDUCATION

UT Dallas Cybersecurity Analytics Bootcamp

May 2026

Powered by Fullstack Academy

Part-time immersive cybersecurity program designed to train in advanced red team/blue team skills and use of security tools

Keller Graduate School of Management

Master of Project Management

June 2019

Master of Business Administration (MBA)

February 2018

DeVry University

Bachelor of Science in Networking and Communications Management

October 2014
